WEBB
eyecare

Hello,

I would like to take this opportunity to thank you for choosing Webb Eyecare for your eyecare needs. We look forward to meeting and exceeding your expectations at your upcoming visit and building a lasting relationship with you and your family.

We are excited to tell you about all of the things that make us different from everyone else. Things like our ***2-year frame and lens warranty***, our ***guaranteed contact lens success program***, and our ***60 day love your glasses guarantee***. We strive to provide the most comprehensive eyecare available and offer only the highest quality products. We'll back it up with great service, and a worry free warranty. Our motto is *We'll Change The Way You Look At Eyecare.* We hope you find that to be true.

As a healthcare provider there is always information that we need to receive from you to best serve you. We therefore have a *'Welcome to our office'* form that we need to have you fill out. We've enclosed this form to give you the opportunity to fill it out at your convenience before arriving for your appointment. This will save you time when you arrive at our office. Just bring it with you to your exam and we can get started right away.

We promise at Webb Eyecare to do the best we can to honor your time by always striving to stay on schedule and keep your wait time to a minimum. We also ask that you help us, and other patients, by showing up on time (or early) for your appointment and calling us in advance to let us know if you will be late or cannot make your appointment. By doing this, we can move other patients into your slot and prevent people from having to wait very long for appointments.

When you arrive for your appointment we ask that you bring in your old glasses and contacts with you, if you have them. It always helps us to know if you have had a prescription change or to know what your favorite contact lens brand is. By bringing your previous eyewear with you we can often prevent extra visits to the office.

If you have vision insurance, bring your insurance card with you or have the information of the primary insured available. If you're not sure what you need, let our staff know which insurance you have and we'll be happy to help you out. Remember that co-pays and non-covered expenses are due at the time of service.

We look forward to meeting your highest expectations.

Sincerely,

Dr. Jason A. Webb, O.D.

NOTICE OF PRIVACY PRACTICES

THIS NOTICE OF PRIVACY PRACTICES ("NOTICE") DESCRIBES HOW WE MAY USE OR DISCLOSE YOUR HEALTH INFORMATION AND HOW YOU CAN GET ACCESS TO SUCH INFORMATION. PLEASE READ IT CAREFULLY. Your "health information," for purposes of this Notice, is generally any information that identifies you and is created, received, maintained or transmitted by us in the course of providing health care items or services to you (referred to as "health information" in this Notice).

We are required by the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and other applicable laws to maintain the privacy of your health information, to provide individuals with this Notice of our legal duties and privacy practices with respect to such information, and to abide by the terms of this Notice. We are also required by law to notify affected individuals following a breach of their unsecured health information.

USES AND DISCLOSURES OF INFORMATION WITHOUT YOUR AUTHORIZATION

The most common reasons why we use or disclose your health information are for treatment, payment or health care operations. Examples of how we use or disclose your health information for treatment purposes are: setting up an appointment for you; testing or examining your eyes; prescribing glasses, contact lenses, or eye medications and faxing them to be filled; showing you low vision aids; referring you to another doctor or clinic for eye care or low vision aids or services; or getting copies of your health information from another professional that you may have seen before us. Examples of how we use or disclose your health information for payment purposes are: asking you about your health or vision care plans, or other sources of payment; preparing and sending bills or claims; and collecting unpaid amounts (either ourselves or through a collection agency or attorney). "Health care operations" mean those administrative and managerial functions that we must carry out in order to run our office. Examples of how we use or disclose your health information for health care operations are: financial or billing audits; internal quality assurance; personnel decisions; participation in managed care plans; defense of legal matters; business planning; and outside storage of our records.

OTHER DISCLOSURES AND USES WE MAY MAKE WITHOUT YOUR AUTHORIZATION OR CONSENT

In some limited situations, the law allows or requires us to use or disclose your health information without your consent or authorization. Not all of these situations will apply to us; some may never come up at our office at all. Such uses or disclosures are:

- when a state or federal law mandates that certain health information be reported for a specific purpose;
- for public health purposes, such as contagious disease reporting, investigation or surveillance; and notices to and from the federal Food and Drug Administration regarding drugs or medical devices;
- disclosures to governmental authorities about victims of suspected abuse, neglect or domestic violence;
- uses and disclosures for health oversight activities, such as for the licensing of doctors; for audits by Medicare or Medicaid; or for investigation of possible violations of health care laws;
- disclosures for judicial and administrative proceedings, such as in response to subpoenas or orders of courts or administrative agencies;
- disclosures for law enforcement purposes, such as to provide information about someone who is or is suspected to be a victim of a crime; to provide information about a crime at our office; or to report a crime that happened somewhere else;
- disclosure to a medical examiner to identify a dead person or to determine the cause of death; or to funeral directors to aid in burial; or to organizations that handle organ or tissue donations;
- uses or disclosures for health related research;
- uses and disclosures to prevent a serious threat to health or safety;
- uses or disclosures for specialized government functions, such as for the protection of the president or high ranking government officials; for lawful national intelligence activities; for military purposes; or for the evaluation and health of members of the foreign service;
- disclosures of de-identified information;
- disclosures relating to worker's compensation programs;
- disclosures of a "limited data set" for research, public health, or health care operations;
- incidental disclosures that are an unavoidable by-product of permitted uses or disclosures;
- disclosures to "business associates" and their subcontractors who perform health care operations for us and who commit to respect the privacy of your health information in accordance with HIPAA;
- [specify other uses and disclosures affected by state law].

Unless you object, we will also share relevant information about your care with any of your personal representatives who are helping you with your eye care. Upon your death, we may disclose to your family members or to other persons who were involved in your care or payment for heath care prior to your death (such as your personal representative) health information

relevant to their involvement in your care unless doing so is inconsistent with your preferences as expressed to us prior to your death.

SPECIFIC USES AND DISCLOSURES OF INFORMATION REQUIRING YOUR AUTHORIZATION

The following are some specific uses and disclosures we may not make of your health information **without** your authorization:

Marketing activities. We must obtain your authorization prior to using or disclosing any of your health information for marketing purposes unless such marketing communications take the form of face-to-face communications we may make with individuals or promotional gifts of nominal value that we may provide. If such marketing involves financial payment to us from a third party your authorization must also include consent to such payment.

Sale of health information. We do not currently sell or plan to sell your health information and we must seek your authorization prior to doing so.

Psychotherapy notes. Although we do not create or maintain psychotherapy notes on our patients, we are required to notify you that we generally must obtain your authorization prior to using or disclosing any such notes.

YOUR RIGHTS TO PROVIDE AN AUTHORIZATION FOR OTHER USES AND DISCLOSURES

- Other uses and disclosures of your health information that are not described in this Notice will be made only with your written authorization.

- You may give us written authorization permitting us to use your health information or to disclose it to anyone for any purpose.

- We will obtain your written authorization for uses and disclosures of your health information that are not identified in this Notice or are not otherwise permitted by applicable law.

- We must agree to your request to restrict disclosure of your health information to a health plan if the disclosure is for the purpose of carrying out payment or health care operations and is not otherwise required by law and such information pertains solely to a health care item or service for which you have paid in full (or for which another person other than the health plan has paid in full on your behalf).

Any authorization you provide to us regarding the use and disclosure of your health information may be revoked by you in writing at any time. After you revoke your authorization, we will no longer use or disclose your health information for the reasons described in the authorization. However, we are generally unable to retract any disclosures that we may have already made with your authorization. We may also be required to disclose health information as necessary for purposes of payment for services received by you prior to the date you revoked your authorization.

HOW HEALTHY ARE THE INSIDE OF YOUR EYES?

A computerized camera now enables us to provide a more thorough analysis of the inside of your eyes. Photo-documentation is painless and does not usually require eye drops for dilation. Nothing will touch your eye, and the images of the inside of your eyes are available immediately for you to review with the doctor. The image of your eye is stored forever and can be an excellent reference point to make future comparisons. A printed copy of the image is also provided for you, upon request.

These computer images can help us detect retinal holes, tears or detachments. Pictures also help find the glaucoma, diabetes and high blood pressure damage to the back of the eyes.

We strongly recommend all patients receive this test. It is especially important for all people over 35 as well as those patients who have a history of high blood pressure, diabetes, floaters or headaches.

There is an additional charge of $39.00 to have this retinal test and photograph. If you are a diabetic or have high blood pressure you may be covered for this test by your major medical insurance. As a courtesy, we can submit your bill for retinal photography to your major medical insurance company for reimbursement, but payment of claims is not guaranteed

Please check the appropriate box below and sign at the bottom.
